COMMENTS FROM THE TOWN MANAGER'S OFFICE

The facilities for sewerage disposal at the Town Garage have become inadequate so that it has become necessary to install a new septic tank. A trench has been excavated and filled with rock for proper drainage. There should be no further trouble for a number of years.

Under the ordinance requiring building permits it also includes installing a heating plant or a bath room. If anyone has installed either a heating plant or bath room this past year and have not obtained the necessary permit, even though the work has been done a permit should be obtained. There is no fee for the permit.

Sincerely,
Harold L. Bean

NEW BOOKS AT THE BETHEL LIBRARY

Adult Books:

"Bat Masterson," by Richard O'Connor—the biography of one of the West's most famous gunfighters and marshals—a man's book.
"The Three Faces of Eve," by Dr. Corbett H. Thilpken and Harvey M. Cleckley. Three hundred years ago she would have been burned at the stake, "Possessed by demons." For this shy, retiring, housewife would suddenly, and without warning, turn into a provocative girl, ready for any irresponsible adventure. And there were times when she was yet another woman! As the story unfolds it generates the excitement of a suspense novel and the fascination of a case study.

Young People's Books:

"Secret Promised Land," by Robert Layall. Dominique dreamed of returning someday to the land of his beginnings in the French Pyrenees. Unlike most of his countrymen, he did not make the trip. It is a memorable story, written with warmth and humor and affection, and well liked by young people.

"Wings Harbor," by Lucile McDonald and Lois Ross. Jane accepted her first 4-H club job eagerly because it would take her away from home, who had just died her husband. Within a few weeks she was tempted to run away again because of new problems, among which was an old friend who was already engaged to a girl in Oregon. Jane would have a part in breaking another girl's heart.

Mr. and Mrs. Stafford Cassell and three children, Washington, D. C., are spending a two week vacation with Mrs. Cassell's mother, Mrs. Winifred Wright. Mr. and Mrs. Carl Wright and family, Bethel, were week end guests at the Wright home.

P.T.A. HOLDS OCTOBER MEETING TUESDAY EVENING

The second meeting of the Bethel P. T. A. was held at Crescent Park School with 114 parents and interested people in attendance. Frances and Wallace Saunders greeted each guest at the door. Communications were read from the Maine Congress of Parents and Teachers, inviting all P.T.A. members to attend a meeting at the new Virginia school in Rumford on Oct. 29 at 7:30. A small registration fee will be charged.

Supt. Charlie told of the games and equipment bought for the outside schools. Charles Helms reported on the forthcoming national education week to be held Nov. 10 to 16. The group voted to buy place mats to be distributed in public eating places advertising this education week.

It has been looked into and found that an ice skating rink could be made outside Crescent Park school. Hearing the report from Charles Helms the P.T.A. voted to sponsor this project.

Barbara Douglas reported on the Portland Little Theatre. A motion was made and seconded to get a date for a spring showing.

The January meeting will be combined with the Health Council to hear Dr. Easton from Norway speak on fund-raising. This is on Jan. 24. Amy Davis is to represent the P.T.A. at the Health Council meeting.

The eighth grade was the attendance banner. The door prize was won by Julie Vachon.

After the meeting a most interesting talk was given by Major General Frank E. Lowe of Major on the United Nations with which he has been closely connected. His talk was based on his own personal views from experience in three wars.

Refreshments were served by the seventh grade mothers.

HANOVER HIGHWAY TO LEAVE OLD LOCATION

Work was started last week by Frank Rossi, Gardiner contractor, on 4.2 miles of highway construction in Hanover. The project begins at a point .7 of a mile east of Newry Corner, continuing easterly to the section of road built 16 years ago through Hanover village. R. S. Merrill is the state engineer on the job.

The new road will have a bituminous concrete surface 24 feet wide with eight foot gravel shoulders. There will be 1 1/2 miles of guard rail and excavations on the job will total 206,000 cubic yards.

The scrapers used on the work have a capacity of 18 cubic yards, and the power shovel will handle 2 1/2 cubic yards at a time.

More than 70% of the construction will be on new location. Near the easterly end of the road, the places of Mrs. Maynard Chase, George Stearns, Wesley Bean and Carroll Bean, and the Top Hat Pavilion will be passed on the north. The new highway will be located to the south of the homes of Ira Brown, Donald Kennedy and Ralph Haggood. In both cases parts of the old road will serve these places.

Pictured here are views east and west as construction began on relocation west of the home of Charles Bartlett. The heavy earth moving equipment is shown removing much of a hill and using it for fill in the Bartlett field.

Inflation, far from being a vague threat, is a real danger than can gobble up our economic advances unless it is kept under control."

The last two games of the season will be played at Berlin and Fryeburg. This Saturday's game is scheduled to start at 7:30 p. m.

The Junior Class of Gould Academy has elected the following officers for the 1957-1958 school year: President, Kirt Newson, of Greenville, N. H.; Vice President, Frederick Dillingham of Lewiston; Secretary, Mary Jasper of Bethel; and Treasurer, Judy Watson of Keston Falls.

Gould Runners Defeated

At Portland 25-31
Portland High won over Gould Academy in cross country last Thursday by a 25-31 score. Don Angvine and Rupert Grover, however, finished first and second in the race. Portland runners finished in the next five places giving them a score of 25. Bertha, 5th; Lincoln 6th, and Roberts 11th, completed the Gould scoring.

Lyndon Takes Gould 24-14

Form held true as Lyndon Institute the host team, won over Gould last Saturday 24-14. The two teams have played 12 games; three have been ties and in every other instance the home team has won. SCHOOL NEWS

Grade 8
Smoke the Bear came to visit the Crescent Park School last week. He talked about forest fires and also sang a few songs. The eighth grade went roller-skating last Friday night and had a wonderful time. We are planning to have two food sales soon to make money for our trip. The boys will have one and the girls another, competing to see who brings in the most money.

Grade 7 — Mrs. E. Lord
Last week we had a program on Fire Prevention Week and invited Mrs. Ring's 4th grade to see it. Smoke the Bear visited the school Friday the eleventh. He gave us a lot of advice on fire prevention which was very interesting. We are now studying Italy and certain people have been giving reports on interesting topics of Italy.

Grade 6 — Miss Varnier
We have had some interesting discussions about "Spunkie," the satellite. As last week was Fire Prevention Week, we made posters to show the dangers of fires. We are trying to sell enough magazine subscriptions in order to get a plastic globe that is 18 inches in diameter on which we can write with a special pencil. On Monday we had a movie on "Newfoundland" and a film strip on "Edward Jenner," the man who discovered the vaccine for smallpox. — Reporter, Clarence Remington, Jr.

Grade 5 — Mrs. Doris Lord
Monday we passed in our Maine notebooks. Mrs. Lord picked out the six best notebooks for display for visiting teachers. The most outstanding ones were as follows: Diane Lohrop, Cindy Freeman, Norma Sloan, Lorraine Farnes, Carol Flint, Martha D. Keniston. Also on Monday we started the study of Canada. The children are bringing books on Canada. We are selling P.T.A. tickets and magazine subscriptions. The magazines will go for different prices for our room. Our top saleswoman is Glynis Witter. She has sold \$12.25 worth of magazines. Mrs. Lord had an Asian flu shot, Thursday. — Reporter, Christine Stevens, helper, Norma Sloan.

Grade 4 — Mrs. Ring
We are sorry to hear that Rhonda Brown has a broken leg instead of a sprained ankle. Mrs. E. Lord's seventh grade invited us to their Fire Prevention program. They had a skit, and sang Smoke the Bear. We liked the program, and we thank them for the invitation. In social studies we are studying about Norway.

Grade 3 — Miss Ballard
We had perfect attendance four days last week. We enjoyed Smoke the Bear on Wednesday. On Friday we made posters which we have on our bulletin board. Our Achievement Tests are finished.

Grade 2 — Mrs. Hastings
We had a test last week in spelling. The Fifth and Sixth grades are selling magazines to help our room get a globe. It's a very big globe. Some children brought in some pictures of Queen Elizabeth. Smoke came last week. A boy asked how wide he was around the chest. Smoke said, "Do you mean around the chest or the waist?" He said he was 55 1/2 inches around the waist. — Betty Stevens and Diane Swain.

BETHEL IFYE DELEGATE VISITED IN FARM FAMILIES IN WALES AND ENGLAND

Back home in Bethel after five months as an International Farm Youth Exchange "grassroots ambassador of good will" to the people of England and Wales is Miss Shirley M. Bartlett.

"All together, she says, 'from the first of April to the end of August I lived with 18 families in 11 counties in England and Wales. I watched the springtime blossom into an unusual summer heat wave and finally into a two-month rainy period. I saw farmers struggle to get their crops sown, and struggle again to get them harvested. It was an unforgettable experience and an important one.'

"I'm certain now that the International Farm Youth Exchange program is one of the surest and finest ways to help achieve world understanding," adds Shirley. Shirley reports that Wales is a country very different from England, its ruler and neighbor. The Bethel miss first visited Mr. and Mrs. Roberts and their 22-year-old daughter, Ann, in the northern county of Denbighshire, Wales. This family worked hard to make a go of their small dairy farm and milk route. Mr. Roberts and his daughter set off for town to retail their

guard. The program encourages states to include driver education as an integral part of the public school curriculum, to extend facilities to all students and to improve the quality of existing courses.

In addition to Maine, 25 other states qualified for awards. Top ranking Awards of Excellence went to Arizona, California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Vermont, Virginia and Wisconsin.

Three states, Missouri, New Hampshire and Texas, won Awards of Honor Maine was the only state to receive an Award of Merit. California and North Dakota were given Special Citations for Driver Education Attainment of their private and parochial schools in 1956-1957.

milk and to chat with each family. Regular features included picking up a vanload of youngsters and the tea and biscuits at the home of the town's eldest citizen, a true Welshwoman, each morning at 11.

In the afternoon, after milking, the milk was cooled and bottled by hand. Mr. Roberts "all but exhausted himself" trying to teach Shirley to speak Welsh. This language is commonly used there in the family, community, and schools. However, the children learn English in school, too and the people speak it in a delightful, singing manner. "Wales is the country of music," points out Shirley. She attended the International Musical Festival held in the town of Llangollen. "There were choral and dance groups, folk singers, and instrumentalists from every corner of the world, dressed in native costumes, performing and competing at this musical fest," she says. "All these people were being accommodated by the townspeople in their homes. It was like a fairytale town with flags and colors bright."

Shirley's second host family in Wales lives in the southernmost area in the county of Glamorgan, across the Bristol Channel from Devon and Cornwall in England. Mr. and Mrs. Williams had a grown son and daughter with them on the farm. A major crop was 120 acres of oats which were stacked and hurried into the Dutch barn on the two days when the sun managed to shine during a very rainy season.

After a month in Wales, Shirley

returned to England for stops at two more families in Derbyshire, at the base of the Pennins Mountains chain which runs north into Scotland, limestone fences dominate the country and twist in and out through every farmer's land. The land is broken into many small fields. This is the highest area in England, with an altitude of about 2,000 feet.

An ancient tradition Shirley witnessed was the annual Well Dressing Ceremony. Every community has at least one well. Once a year the townspeople set aside a day to give thanks to God for their water. The wells are decorated with a huge covering upon which a religious scene is formed with flowers, making a lovely display. The ceremony itself is very simple, explains the Bethel IFYE delegate. The Vicar and perhaps a Bishop come to preside over the service. Everyone gathers around the well for a few moments of thanksgiving. The wells are lighted at night.

Shirley Bartlett is now engaged in discussing her five months in England and Wales to 4-H club groups and other interested organizations in Maine. She took many colored slides in the two countries and shows these to illustrate her talk.
